PROFESSIONAL EXPERIENCE

Data analytics professional with experience in machine learning and product development, building data-driven solutions including NLP-based analytics features and retail POS platforms.

KISS Products, Inc.

September 2024 to Present

Assistant Manager, Business Analyst

New York, NY

- Led product development of a retail POS platform for Beauty Supply stores, improving transaction workflows and operational visibility
- Collaborated with UX/UI designers to define user journeys, wireframes, and feature flows supporting real retail operations
- Managed cross-functional teams including software vendors, payment processors, and POS hardware providers to support product rollout
- Developed and executed QA and UAT testing frameworks validating retail scenarios including promotions, discounts, and payment processing.
- Analyzed retail operations and competitive POS solutions to guide feature enhancements and product roadmap decisions

S&P Global

June 2024 to August 2024

Data Associate Intern

New York, NY

- Developed a trend analysis feature within the S&P Capital IQ platform using NLP and LLM techniques, enabling users to identify how companies reference related concepts through keyword searches.
- Implemented clustering algorithms and cosine similarity scoring to group related key-phrases and concepts, enhancing the search experience and providing deeper insights
- Collaborated with cross-functional teams to integrate the service into existing systems, resulting in improved data analytics and customer satisfaction

Baruch College, Zicklin School of Business

January 2023 to May 2024

Graduate Teaching Assistant

New York, NY

- Facilitated diverse courses including 'Data Visualization' and 'Python Programming for Analytics'
- Enhanced curriculum with Tableau exercises and advanced Python (Pandas, Scikit-learn, Plotly, Bokeh)

Buddhist Broadcasting System

April 2020 to July 2022

Assistant Marketing Manager

Seoul, Republic of Korea

- Analyzed consumer behavior for radio ads, driving revenue growth by 15% over 2020-2021
- Managed ₩1B in annual ad campaigns across TV, radio, and web, achieving significant ROI
- Optimized ad sales using Nielsen data, improving performance by 20%

PROJECTS

Data Warehousing of NYC 311 Service Complaints and Open Parking Violations

January 2023 to May 2023

- Utilized ETL techniques, including dbt, to merge and transform diverse data sources into a robust data warehouse
- Built Tableau dashboards to visualize KPIs and insights from combined NYC 311 Service Complaints and Open Parking Violations datasets

ACHIEVEMENTS

Semi-Finalist of Adobe Analytics Challenge with General Motors

February 2024 to March 2024

- Analyzed General Motors Cadillac's data with Adobe Analytics; identified key user behaviors and conversion drivers
- Recommended mobile optimization and personalized engagement for Build & Buy tool

First-Place Winner of the Baruch Data Challenge with Pitney Bowes

January 2023 to March 2023

- Led a team in conducting Time Series Analysis as well as Clustering and Segmentation techniques, and developed a predictive analytics solution that resulted in improved decision-making for clients
- Executed project plans to deliver high-quality results on time, managed judges' expectations, and ensured alignment with project goals while creating PowerPoint presentations to provide the business insights derived from our analysis
